

## **SealCleaner 20**

**Cleaning station for seals**

- Countdown timer for setting the cleaning time with automatic shut-off
- Automatic input voltage regulator
- Removable seal container, easy to fill and empty
- Operating buttons for Power ON/OFF, Start and Stop
- Air input for best cleaning results
- Special cleaning towels

# OPTIONS

# SealCleaner 20

## Description

The SealCleaner 20 is an accessory used in loose piece sealing. It easily cleans and dries oily seals by tumbling them in combination with special towels. Cleaning the seals prevents them from sticking together and reduces feed track contamination, thus ensuring higher process reliability. The SealCleaner 20 is an easy to use independent accessory for use with automated crimping, as well as benchtop seal processing machines. Schleuniger recommends cleaning oily seals with the SealCleaner 20 before putting them into the processing machine.

Technical Specifications	
Power supply	115 – 240 VAC / 50/60 Hz, max. 0.3 kW
Minimum compressed air	6 bar (90 psi), not oiled, dried and filtered
Timer	0 – 50 min
Maximum load	3 kg (7 lbs.)
Dimensions (L x W x H)	400 x 300 x 450 mm (12.0" x 16.0" x 18.0")
Weight	11 kg (24 lbs.)
CE – conformity	The SealCleaner 20 fully complies with all CE and EMC equipment guideline relative to mechanical and electrical safety and electromagnetic compatibility.
